## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 229 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 229 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (703) 305-1383. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

**Notice of Fee Increase on October 1, 2003**

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- |                                       |            |
|---------------------------------------|------------|
| By a small entity (Sec. 1.27(a))..... | \$665.00   |
| By other than a small entity.....     | \$1,330.00 |
- (b) Issue fee for issuing a design patent:
- |                                       |          |
|---------------------------------------|----------|
| By a small entity (Sec. 1.27(a))..... | \$240.00 |
| By other than a small entity.....     | \$480.00 |
- (c) Issue fee for issuing a plant patent:
- |                                       |          |
|---------------------------------------|----------|
| By a small entity (Sec. 1.27(a))..... | \$320.00 |
| By other than a small entity.....     | \$640.00 |

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

Art Unit: 2187

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the specification, in the paragraphs beginning on page 9, line 14 as shown in the amendment filed September 8, 2003, replace "Figure 20A ... mapping units;" with

-- Figure 19 is an exemplary diagram illustrating an instant copy of old data when a write operation is performed to the copy data area;

Figures 20A and B are exemplary diagrams illustrating how the copy operations described with regard to Figures 18A, B and C and 19 may be used with variable size mapping units;

Figure 21 is an exemplary diagram illustrating an instant copy method, i.e. method A2, in which all writes are made to the copy data area;

Figure 22 illustrates a separation of two copies of data in accordance with the present invention; -- .

**In the drawings:**

The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Art Unit: 2187

The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on September 8, 2003 have been proved by the Examiner, subject to drafting review.

It is also noted here that in Figure 20A, it appears "NEW NEW" should be simply --NEW-- (note that the changes made in Figures 21-23, e.g.).

Corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

In order to avoid abandonment of the application, applicant MUST make these above agreed upon drawing changes.

The Patent and Trademark Office no longer makes drawing changes. See 1017 O.G. 4. It is applicant's responsibility to ensure that the drawings are corrected.

The following changes have also been made by an informal Examiner's amendment. Since the changes are all of a minor or obvious nature, the changes have been incorporated by an informal Examiner's amendment. See MPEP 1302.04.

**In the abstract:**

lines 1-2, "dynamically ... system" has been changed to --performing an instant copy of data are disclosed--.

**In the specification:**

Art Unit: 2187

On page 7, line 22, --the-- has been inserted before "potential."

On page 27, line 8, "description of" has been changed to --a description of the--.

2. The following is an Examiner's statement of reasons for allowance:

The claimed invention is directed to a method and apparatus for performing an instant copy of data, and an associated computer program product in a computer readable medium for performing an instant copy of data. The claimed method includes receiving a write operation command to write data to a data location in one of an initial physical storage area and an additional physical storage area, and performing an instant copy operation to copy data from the data location. The method according to the claimed invention further includes writing new data to the data location in accordance with the write operation, the instant copy operation including generating a pointer to one of the new data and original data in the data location, and in response to writing new data to the data location, updating the pointer to one of the original data or new data in the data location. Here, "new data" has been defined in the specification (on page 43) as that new data that was written to either the original data or the copy data, subsequent to the instant copy command execution.

While various "instant" copy methods were known in the art, the prior art of record is not seen to teach or fairly suggest a method for performing an instant copy of data as claimed including writing "new data" to a data location in accordance with a write operation, the instant copy operation including generating a pointer to one of the new data and original data in the data

Art Unit: 2187

location, and in response to writing new data to the data location, updating the pointer to one of the original data or new data in the data location, where "new data" is that new data that was written to either the original data or the copy data, subsequent to the instant copy command execution. In this regard, attention is also directed to applicants' remarks in the response filed September 8, 2003, at pages 29-32, as well as pages 41-44 of the specification, particularly page 44, lines 11-27.

Accordingly, the invention as set forth in the claims, when read in light of the specification and applicants' remarks, is not seen to be anticipated or made obvious, within the meaning of 35 U.S.C. 103, by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 305-3900.
